

MODEL ACTIVITY TASKS
CLASS – IX
GEOGRAPHY AND ENVIRONMENT

Answer the following questions:

1. “The Earth is the only habitable planet in the solar system.” - Justify the statement.
2. Describe the variations in the length of day and night with suitable diagram.
3. Distinguish between conventional and non-conventional sources of energy.
4. Mention some probable measures to conserve resources.

**Students will write answers to these activity tasks in subject specific exercise books at home, and submit the exercise books to respective subject teachers after schools reopen.
Under no circumstance, students will go out of home.**
