

MODEL ACTIVITY TASKS
CLASS – IX
GEOGRAPHY AND ENVIRONMENT

Answer the following questions:

1. How does the Coriolis effect influence wind and ocean current?
2. What are the different uses of GPS?
3. What would happen if the Earth did not rotate at all?
4. Explain why the use of non-conventional sources of energy is on the rise.

Students will write answers to these activity tasks in subject specific exercise books at home, and submit the exercise books to respective subject teachers after schools reopen. Under no circumstance, students will go out of home.
