

**MODEL ACTIVITY TASKS**  
**CLASS – XII**  
**GEOGRAPHY**

---

**Chapter: Geomorphic Processes**

**Answer the following questions:**

1. Determine the interrelationship of aggradation, degradation and gradation.
2. Describe the controlling factors of groundwater.
3. Describe the different layers of groundwater with suitable sketches.
4. Differentiate between confined and unconfined aquifers.

---

**Students will write answers to these activity tasks in subject specific exercise books at home, and submit the exercise books to respective subject teachers after schools reopen.  
Under no circumstance, students will go out of home.**
