

**MODEL ACTIVITY TASKS**  
**CLASS – XI**  
**GEOGRAPHY**

---

**Chapter: Principles of Physical Geography**

**Answer the following questions:**

1. Explain the theory of Laplace about the origin of earth.
2. Give a brief account of the sources of data about the interior of the earth.
3. Draw a labelled diagram to show different layers and discontinuities of earth's interior.
4. Distinguish between sial and sima. Mention five characteristics of core.

---

**Students will write answers to these activity tasks in subject specific exercise books at home, and submit the exercise books to respective subject teachers after schools reopen.  
Under no circumstance, students will go out of home.**
