

MODEL ACTIVITY TASKS
CLASS – IV
OUR ENVIRONMENT

Write the answers to the questions given below :

1. What problems may arise if the capacity of the lungs get reduced?
2. Write the measures that can be taken for conservation of wildlife.
3. How are water droplets formed on the outer surface of a glass full of ice?
4. State the name of organisms whose habitat can get destroyed if the water of a pond is poisoned. Write what other damages might occur in this scenario.

**Students will write answers to these activity tasks in subject specific exercise books at home, and submit the exercise books to respective subject teachers after schools reopen.
Under no circumstance, students will go out of home.**
